

#### § 1434.5

(4) A surety, by furnishing a bond, guarantees to protect CCC from any loss incurred for which the minor would be liable had the minor been an adult.

(g) A CMA that the Executive Vice President, CCC, determines meets the requirements for CMA's in part 1425 of this title may be eligible to obtain a loan on behalf of those members who themselves are eligible to obtain a loan provided that:

(1) The beneficial interest in the honey must always, until loan repayment or forfeiture, remain in the member who delivered the honey to the eligible CMA or its member CMA's, except as otherwise provided in this part; and

(2) The honey delivered to an eligible CMA shall not be eligible for a loan if the member who delivered the honey does not retain the right to share in the proceeds from the marketing of the honey as provided in part 1425 of this title.

#### § 1434.5 Eligible honey.

To be eligible for a loan, the honey must:

(a) Have been produced by an eligible producer;

(b) Have been produced in the United States during the calendar year for which a loan is requested and extracted on or before December 31 of such calendar year;

(c) Be of merchantable quality deemed by CCC to be suitable for loan; that is, the honey:

(1) Is not adulterated;

(2) Has not been scorched, burned, or subjected to excessive heat resulting in objectionable flavor, color deterioration or caramelization;

(3) Does not contain any ineligible honey floral sources; such as andromeda, bitterweed, broomweed, cajeput (melaleuca), carrot, chinquapin, dog fennel, desert hollyhock, gumweed, mescal, onion, prickly pear, prune, queen's delight, rabbit brush, snowbrush (ceanothus), snow-on-the-mountain, spurge (leafy spurge), tarweed, and similar objectionably-flavored honey or blends of honey as determined by the Director, Price Support Division, FSA. If any blends of honey contain such ineligible honey,

#### 7 CFR Ch. XIV (1-1-04 Edition)

the lot as a whole shall be considered ineligible for loan;

(4) Does not contain excessive bees or bee parts, paint chips, wood chips, or other foreign matter; and

(5) Is not fermenting; and

(d) Be stored in acceptable containers.

#### § 1434.6 Beneficial interest.

(a) To be eligible to receive marketing assistance loans under this part a producer must have the beneficial interest in the honey that is tendered to CCC for a loan. The producer must always have had the beneficial interest in the honey unless, before the honey was extracted, the producer and a former producer whom the producer tendering the honey to CCC has succeeded had such an interest in the honey. Honey obtained by gift or purchase shall not be eligible to be tendered to CCC for loans. Heirs who succeed to the beneficial interest of a deceased producer or who assume the decedent's obligations under an existing loan shall be eligible to receive loans whether succession to the honey occurs before or after extraction so long as the heir otherwise complies with the provisions of this part.

(b) For the 2002 crop of honey, in the case of producers that would be eligible for a loan deficiency payment under this section except for the fact that the producers lost beneficial interest in the crop before October 18, 2002, the producers shall be eligible for a loan deficiency payment as of the date producers marketed or otherwise lost beneficial interest in the honey, as determined by the Secretary.

(c) A producer shall not be considered to have divested the beneficial interest in the honey if the producer retains control, title, and risk of loss in the honey including the right to make all decisions regarding the tender of such honey to CCC for a loan, and the producer:

(1) Executes an option to purchase, whether or not a payment is made by the potential buyer for such option to purchase, with respect to such honey if all other eligibility requirements are met and the option to purchase contains the following provision:

Notwithstanding any other provision of this option to purchase, title, risk of loss, and beneficial interest in the honey, as specified in 7 CFR part 1434, shall remain with the producer until the buyer exercises this option to purchase the honey. This option to purchase shall expire, notwithstanding any action or inaction by either the producer or the buyer, at the earlier of: (1) The maturity of any CCC loan which is secured by such honey; (2) the date the CCC claims title to such honey; or (3) such other date as provided in this option."

or:

(2) Enters into a contract to sell the honey if the producer retains title, risk of loss, and beneficial interest in the honey and the purchaser does not pay to the producer any advance payment amount or any incentive payment amount to enter into such contract except as provided in part 1425 of this chapter.

(d) If loans are made available to producers through an approved CMA in accordance with part 1425 of this chapter, the beneficial interest in the honey must always have been in the producer-member who delivered the honey to the CMA or its member CMA's, except as otherwise provided in this section. Honey delivered to such a CMA shall not be eligible for loans if the producer-member who delivered the honey does not retain the right to share in the proceeds from the marketing of the honey as provided in part 1425 of this chapter.

(e) A producer may, before the final date for obtaining a loan for honey, re-offer as loan honey any honey that has been previously pledged if the loan was repaid with principal plus interest, the loan on such re-offered honey shall have the same maturity date as the original loan.

[66 FR 15177, Mar. 15, 2001, as amended at 67 FR 64480, Oct. 18, 2002]

#### § 1434.7 Approved storage.

(a) Loans will be made only on honey in approved storage, which shall consist of a storage structure located on or off the farm that is determined by CCC to be under the control of the producer and affords safe storage for honey pledged as collateral for a loan. If the honey located in a farm storage structure is pledged as collateral that se-

cures more than one loan, the honey must be segregated so as to preserve the identity of the honey securing such loan. Honey securing a loan must also be segregated from any honey not pledged as collateral for a loan that is stored in the same structure.

(b) Producers may also obtain loans on honey packed in eligible containers and stored in facilities owned by third parties in which the honey of more than one person is stored if the honey that is to be pledged as collateral for a loan and that is stored identity preserved or is segregated from all other honey. Each container of the segregated quantity of honey shall be marked with the producer's name, loan number, and lot number so as to identify the honey from other honey stored in the structure.

#### § 1434.8 Containers and drums.

(a)(1) The honey must be packed in plastic Intermediate Bulk Container (IBC) or metal containers of a capacity of not less than 5 gallons or greater than 70 gallons. The IBC container is a bulk container with a polyethylene inner bottle with a galvanized steel protective cage with a 275 and 330 gallon capacity and is reusable. The metal containers must meet the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations issued thereunder and must be generally fit for the purpose for which they are to be used;

(2) The 5-gallon containers must hold approximately 60 pounds of honey, and must be new, clean, sound, uncased, and free from appreciable dents and rust. The handle of each container must be firm and strong enough to permit carrying the filled container. The cover and can opening must not be damaged in any way that will prevent a tight seal. Cans that are punctured or have been punctured and resealed by soldering will not be acceptable; and

(3) The steel drums must be an open-end type and filled no closer than 2 inches from the top of the drums. Such drums must be new or must be used drums that have been reconditioned inside and outside. The steel drums must be clean, treated inside and outside to prevent rusting, fitted with gaskets that provide a tight seal and have an
